welcome to cyber access.

we are an isp based in cambridge, massachusetts.

looking for great [webhosting](#), [dialup internet accounts](#), or [colocaton](#) in the boston area? look no further than cyber access internet communications!

we are an internet service provider (isp) based in cambridge, massachusetts. we offer [dialup internet access](#) in the boston area as well as [website hosting](#), [t1 access](#), [isdn](#), [dsl](#) and inexpensive [server colocation](#).

we are known for our super fast and reliable linux servers, solid dialup connections and excellent technical support. real live tech support is available 24 hours a day, 7 days a week. our network is lightning-speed fast with plenty of bandwidth.

we do not censor content and believe in free speech online. we ensure your right to privacy and confidentiality, and we do not sell or disclose client information. (and we don't sell your email address to [spammers!](#))

we have dialup service in the 617, 781, 978 and 508 area codes with unlimited, unmetered time online, free email, ftp and scp access to 50 megs of webspace (!), a unix shell account, access to newsgroups and webmail. a great value, and cheaper than AOL, MSN and Earthlink! and we answer the phones when you call!

we offer a great webhosting service that's as low as \$9.95 a month. what a great deal!

with wonderful technical support including our patented "no hold time" and "real humans answer the phone" policies, you'll be amazed at how painless your internet access can be. call us now and get online in minutes. try us today and we'll give you your first month free!
