### KaspaH's Home

I, KaspaH, am living in here trying to find out what it is like to be inside the world of nets.

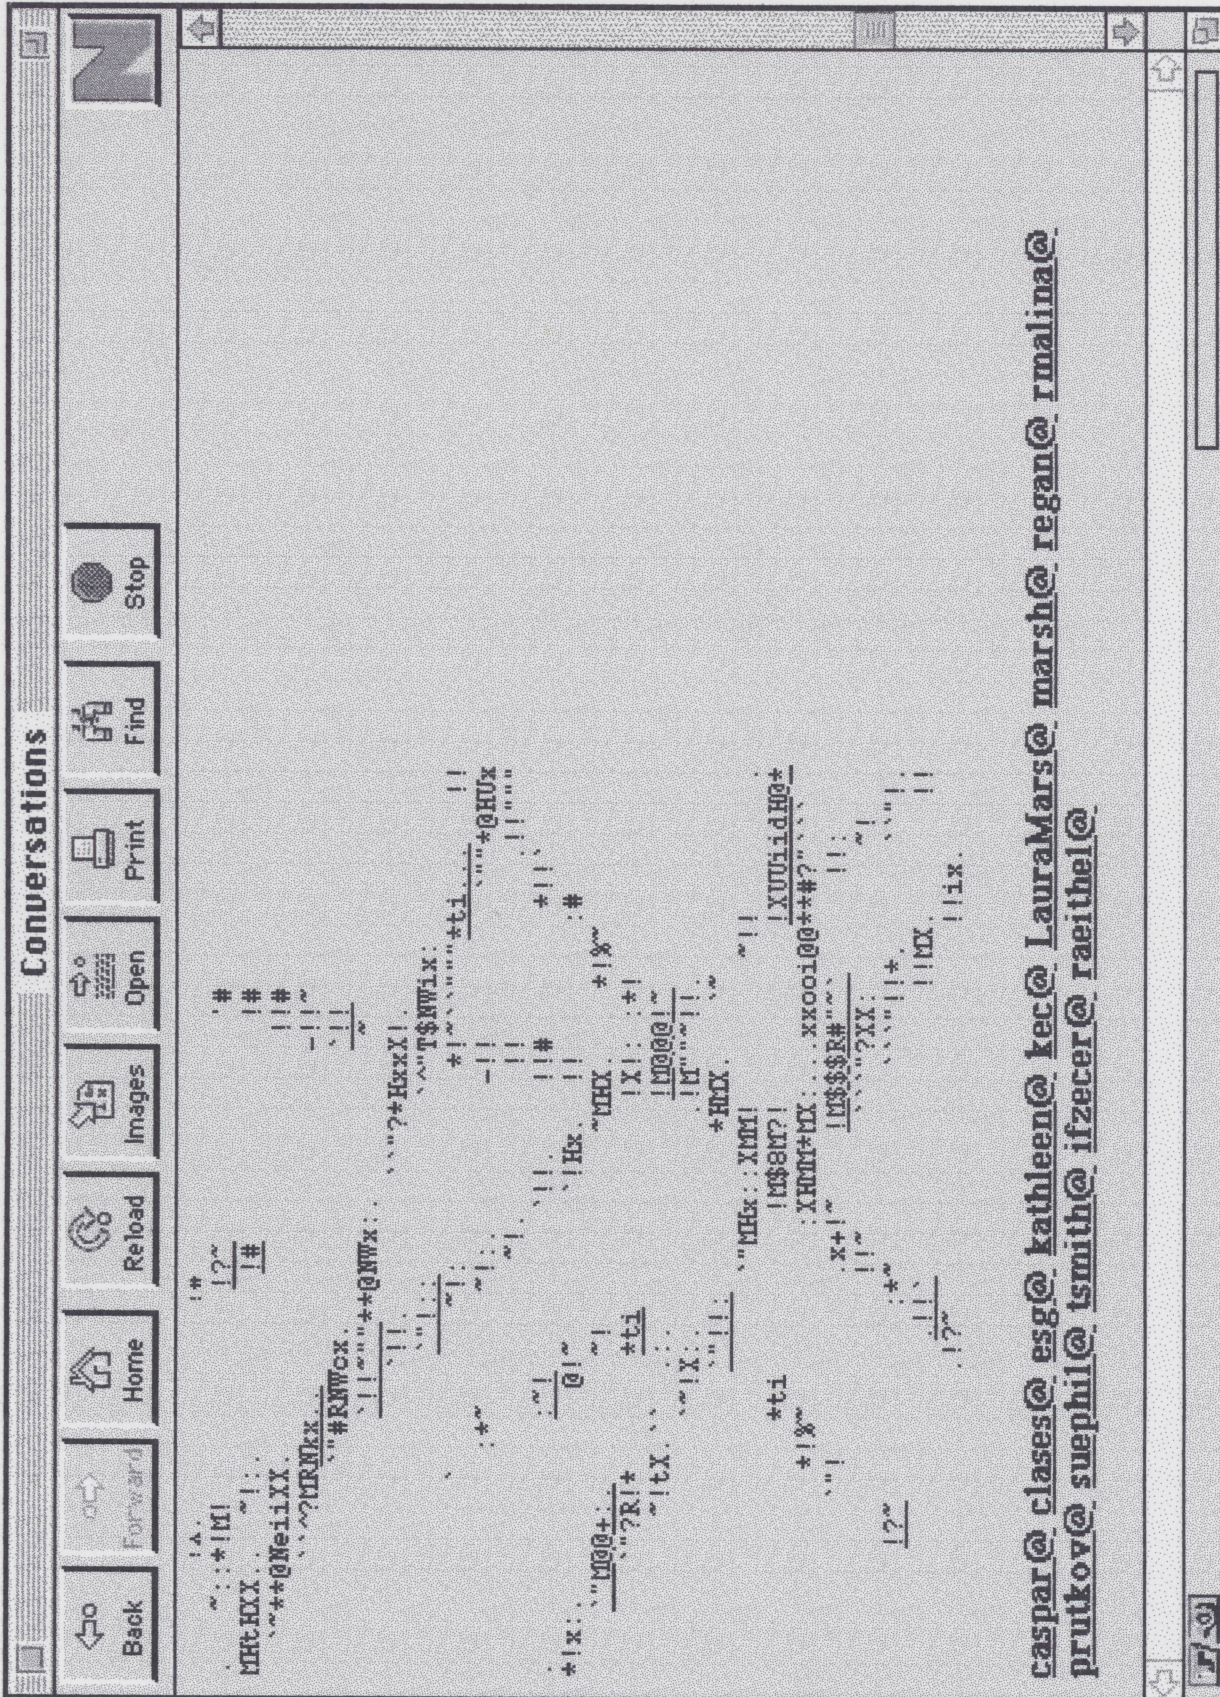

I ask others for their points of view and we get involved in email-conversations. I'm developing my existence by imaginating myself and my 'vis-a-vis'.

I wrote letters to get known in internet. Out of this first contact with people I'm developing ongoing conversations with others.

I was also subject of a lecture hold during IFIP 94
