MICHAEL COLLERY
Senior Animator/Effects Supervisor

As a senior animator and effects supervisor at Pacific Data Images' Sunnyvale studio since 1988, Michael Collery has worked on a host of commercial and television projects. Most recently, Michael served as the art/technical director on the PDI in-house animated short, "Gas Planet." Prior to becoming a part of PDI, Michael worked as Director of Animation at Cranston-Csuri for seven years where his credits include four Clio finalists and seven International Film & TV Festival of New York medals, among others. Images of his work have also appeared in numerous magazines, text books and selected shows throughout the world. Michael holds an MFA in Computer Graphics and Animation from Ohio State University.
