ERIC DARNELL
Animator

Since 1991 Eric Darnell has been a member of the Character Animation Group at Pacific Data Images, Sunnyvale. While at PDI, Eric has used his experience in character animation, effects and art direction for numerous television and film projects. He has also garnered worldwide attention with his direction and animation of the PDI in-house animated short, "Gas Planet." Prior to joining PDI, Darnell worked on a variety of animations for music videos and commercials as well as personal experimental work and animation instruction for high school students. Eric holds an MFA in Experimental Animation from the School of Film/Video at California Institute of the Arts.
