

Dear Ms. Schopf,

As per your request, I am sending a paragraph biography.

Lynn Hershman received her Bachelor of Science from Case Western Reserve University, and her Master of Arts from San Francisco State University. She is credited with creating the "first" interactive laserdisk, Lorna, and has to date, created three interactive installations. She has had over 150 one person exhibitions in museums throughout the world, has published numerous articles and won many grants and prizes, including three from The National Endowment for The Arts, and First Prize at the International Festival of Video and Television at Montbelliard. She is a professor at San Francisco State University.

Sara Roberts received her Masters of Arts degree from California College of Arts and Crafts. Ms. Roberts created three interactive installations, which have been exhibited at several museums. She has worked at Lucasfilm and American Zoetrope and currently teaches at San Francisco State University.

Please let me know if you need more material.

Best,

Lynn Hershman
