

Grinning Evil Death

An Animation By:
Mike McKenna and Bob Sabiston
MIT Media Laboratory

A Few Extra Notes

We have supplied two versions of our animation- the first, an edited 5:00 length entry to conform to the 5 minute limit in the rules. We have also supplied the original version, which is 6:50 in length, which follows the 5:00 version on the VHS tape. We hope that after judging the 5:00 minute version, you will allow the full-length version to be shown at events associated with *Prix Ars Electronica*.

Also, our original master is on Betacam NTSC, which we will be happy to provide upon request.
